Subject: NEWS: "Further With Food": new US multi-stakeholder solutions center for reducing food waste...Also: Food Waste Tops SDG Business Opportunities.

To help companies save money and other resources lost to wasted food, The Rockefeller Foundation, the US Department of Agriculture, the EPA and a partnership of 10 industry and nonprofit organizations are creating an online hub for information and best-practices to help achieve the US goal of cutting food waste in half by 2030....
"Further With Food" will hold a repository of proven solutions...

Reducing Food Waste Tops Business Opportunities Related to SDGs

"Reducing food waste can provide new revenue streams for companies as well. A recent study that looked at business opportunities related to the UN Sustainable Development Goals found the biggest is in reducing food waste in the value chain, which could yield up to \$405 billion annually in economic benefits"
